1. This Office Action is responsive to Applicant's application filed on 12/11/03.
2. Claim 1 is allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not disclose or render obvious a motivation to provide for a transmission for a working machine as defined by the limitations of claim 1, including a shift lever swingably provided outside the transmission case and comprising first and second protrusions, wherein the first protrusion is constantly engaged with a first operating member which connects the shift lever to a drive transmission mechanism, and the second protrusion is engaged with a second operating member, which connects the shift lever to a working transmission mechanism, when the shift lever is swung in one direction and is disengaged from the second operating member when the shift lever is swung in the other direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
